31. The fishing was actually one of the reasons I attended the festival as I have fished that area for the past 35 years. While fishing the lower (very, very remote section) McCloud Monday and Tuesday it dawned on me that there is a great opportunity for you to get together with one or two of the local fishing guides to put on a little "Tango and Trout" seminar. Something that would transition from one to the other....fact is it could go both ways: Small group goes fishing then tango and then another group goes tango then fishing. I would be happy to put you in touch with the guides I know of in/around McCloud.
